MEMORANDUM FOR: Executive Director

SUBJECT: Plants for the First Floor Quadrangle

1. This memorandum refers to the discussion which George Thompson and I had with you this morning. Attached is George's report on plants for location in the first floor quadrangle in keeping with the recommendation of the Interior Space Design. It is the last element currently planned for that area.

2. The Fine Arts Commission concurs in the ISD recommendation and also recommends that you approve the expenditure of funds as indicated for this purpose. I note here that, as George indicated, two additional estimates were secured, both of which were larger--one on the order of twice the amount recommended.

3. In our conversation you indicated that you wished to discuss this with BPAM and the General Counsel. As a matter of convenience I am forwarding two copies of this memorandum with its attachment for ready reference to these individuals.
